

# Oracle ODBC driver product datasheet

---

## Overview

Our Oracle ODBC drivers are lightweight client or server-side drivers that are simple to install and allow easy access to your data from ODBC enabled applications or databases.

Developed from the ground up we have two versions available:

- ✓ Our Oracle client version — this is our Oracle Call Interface (OCI) driver and needs the Oracle client software (either the Instant Client or standard Oracle database client) to be installed.
- ✓ Our clientless version &mdash; aka "The Wire Protocol (WP) driver" does not require any Oracle client software to be installed, because, unlike the OCI driver, it accesses Oracle directly.

Easysoft recommend the Oracle client version.

Using the Oracle client version provides many additional benefits to organisations: Oracle Advanced Security, Real Application Clusters (which is a high availability feature), Transparent Application Failover, OCI performance tuning mechanisms, and so on.

So when performance matters, we'll always recommend that clients use the OCI version of our Oracle driver.

But if you want to minimise the software footprint on your client machines or the Oracle client just isn't available to you then we do also provide a Wire Protocol driver.

## Key points

### FREE trial

14-day (no obligation) trial available.

### Updates

We deliver platform updates to our drivers faster than any other third-party developer.

### With your business in mind

When it comes to meeting data demands while facing tighter IT budgets, and exponential data growth, you could use some help from Easysoft.

### Productivity

Our driver delivers the functionality you need to be more productive with your data.

### Feature rich

No matter how complex your data architecture and requirements gets, we can support you.

## Our Oracle support

We have been supporting the Oracle platform since 1997, so it will come as no surprise that our Oracle ODBC driver supports ALL versions from Oracle 8 to the very latest release; this will ensure that no matter what release of Oracle RDBMS your enterprise is using, we will support it.

## Connecting with ease

Every database administrator knows that ensuring that their Oracle is performing optimally is no easy task; when it comes to ensuring that you have a solid and reliable connection to your important data, you can be confident when you have someone like Easysoft on your side. Whether using Windows, Linux, or UNIX to connect to your Oracle data, you can rest assured that our driver offers you the most secure, fast, and most resilient connection.

## Key features

- ✓ FREE 14-day trial available
- ✓ Real-time connection to your Oracle platform
- ✓ Supports all Oracle data types
- ✓ Provides both ANSI and Unicode access to Oracle databases
- ✓ No limitations on scalability
- ✓ Quick and easy to install
- ✓ Works with the latest ODBC 3 API standard

## Key benefits

- ✓ Real-time connection
- ✓ Gets your business data faster than any other third-party solution

## Winning support

From the moment you download any of our software, our helpdesk staff and consultants are here to help you.

- ✓ Reinforces your security strategy
- ✓ Reduced total cost of ownership through "best in class" technical support.
- ✓ Developed with optimisation in mind

## Platforms

Version	Platform	Distribution
v3.10 (Oracle 8.1.7 - 23c, 23ai, 26ai)	AIX (PPC) (32 - Bit)	(7.2, 7.3)
v3.10 (Oracle 8.1.7 - 23c, 23ai, 26ai)	AIX (PPC) (64 - Bit)	(7.2, 7.3)
v3.10 (Oracle 8.1.7 - 23c, 23ai, 26ai)	Linux (x86) (32 - Bit)	(kernel 2.2-6.0+, glibc 2.1+)
v3.10 (Oracle 8.1.7 - 23c, 23ai, 26ai)	Linux (x86) (64 - Bit)	(kernel 2.6-6.0+, glibc 2.3.5+)
v3.10 (Oracle 8.1.7 - 23c, 23ai, 26ai)	Windows (x86) (32 - Bit, 64 - Bit)	(7, 8, 2012 R2, 10, 2016, 2019,11,2022, 2025)
v3.9 (Oracle 8.1.7 - 21c)	HP-UX (Itanium i64) (32 - Bit)	(11i)
v3.9 (Oracle 8.1.7 - 21c)	HP-UX (Itanium i64) (64 - Bit)	(11i)
v3.9 (Oracle 8.1.7 - 21c)	Solaris (Sparc) (32 - Bit)	(2.6-2.11)
v3.9 (Oracle 8.1.7 - 21c)	Solaris (Sparc) (64 - Bit)	(2.8-2.11)
v3.7 (Oracle 8.1.7 - 18)	HP-UX (PA-Risc) (32 - Bit)	(11)

v3.7 (Oracle 8.1.7 - 18)	HP-UX (PA-Risc 2) (64 - Bit)	(11)
v3.7 (Oracle 8.1.7 - 18)	Solaris (x86) (32 - Bit)	(2.8-2.11)
v3.7 (Oracle 8.1.7 - 18)	Solaris (x86) (64 - Bit)	(2.8-2.11)
v3.6 (Oracle 8.1.7 - 12)	Linux (Itanium i64) (64 - Bit)	(kernel 2.4-3.0+, glibc 2.2.5)

## Easysoft support

As a leading supplier of middleware data access solutions we recognise that the right guidance, advice and support is vitally important to organisations of all sizes, which is why we support them all from way from the moment they start to evaluate our software to the first 12 months after purchase.

- ✓ Fully functional software for evaluation.
- ✓ Free 14-day trials available.
- ✓ Helpdesk support available from the moment you download our software.
- ✓ No hard sell or gimmicks, just great products that work.
- ✓ A wealth of documentation is available online from guides to getting started to technical FAQs.
- ✓ On-site consultancy available.
